

Objectives of RE-THINK workshop

- Obtain a deeper understanding of the complexities that emerge from varied local conditions and contexts as one reaches out to the lower rungs of the economic ladder.
- Understand how interventions can be impactful and sustainable with localized solutions.
- Understand and analyse model and process replication
- Explore, initiate and implement strong replication projects or replicable ideas across multiple sectors.

RE-THINK *Empowering communities through replication*

1,2 December, 2015
Venue: IIM, Bangalore

“RE-THINK” is an interactive workshop that aims to bring together organisations to rethink the way scaling and impact is perceived to address the needs of the communities and create a larger and sustainable impact.

RE-THINK provides a platform to start dialogue and spark ideas on Replication through expert talks, reflections, discussions and participatory activities.

Participants:

Grassroot or veteran organisations from various sectors such as community development, built environment & housing, education, energy, finance, human rights, policy, technology etc. These include the organisations that have demonstrated innovations, sustainable scalable models and practices as well as organisations that are looking for inspiration and want to explore new ideas to deepen impact.
