

Renganathan Sekar

Executive Post Graduate Programme in Management (EPGP) 2021-2022

Gold Medallist – Best All Round Performer

While at IIMB, Renganathan Sekar participated in seven national-level competitions, out of which he won the first or second prize in five competitions. He also contributed to the batch by authoring brief write-ups on seminars and events, as well as best-selling business book summaries.

“I made sure I went prepared for almost all the sessions, which helped me grasp the in-class teaching better. The experience was also elevated by the diverse and widely experienced cohort. Some of our class members were subject matter experts, who took the in-class learning to the next level.”

He shares that he plans to make a foray into product management. “Software has always been close to my heart. I have written sold software for a living so far. I would like to apply this experience along with the wisdom gained through my MBA, to build products at scale.”

Renganathan is from Trichy, Tamil Nadu. “My father is a teacher and my mother a retired banker. I have an elder sister, and am married with a one-year-old daughter.”
