

## RESUME

**Name:** Jubin Mehta

**Residence:** VPO Banordu, Dharamshala, Himachal Pradesh

**Birth place:** Vadodara, Gujarat

**Age:** 30, Male

**Brief:** I have spent 7+ years in the field of media with YourStory.com and saw it grow from 3 people to a 100+ team in Bangalore. Questions on the way urban India is developing brought me to Dharamshala where I currently live (from the last 4 years). After starting Ghoomakad, a travel venture, I have been experimenting with farming, technology, natural dyes and media in general. These outer and inner explorations have given way to a community-run print+online magazine called [Saadho](#).

The process of learning and experimenting is lifelong but from where I stand today, there is a feeling of spending time with the youth since they're the ones who'd be shaping how the world looks in the future. Through teaching a course, I'd love to sow the seeds of sharing, love and compassion (from whatever I have).

As for the nuts and bolts, I can spend time with the students learning (I don't like the word 'teach') new media, media studies, entrepreneurship, creative writing/expression.
