

Sumit More

Executive Post Graduate Programme in Management (EPGP) 2020-2021

Gold Medallist – 1st Rank Holder

It has been Sumit More's dream to study at IIMB. The 34-year-old says the year has been full of unprecedented and unexpected challenges because of the pandemic. "I was fortunate to receive the merit scholarship based on my academic performance in Term 1 and Term 2. I also got the opportunity to attend the global network exchange programme offered by Haas School of Business, University of California Berkeley (United States) and learn about 'Bay Area Innovation and Entrepreneurship'. The international immersion programme, offered by the University of Erlangen-Nuremberg (FAU), Germany, provided additional valuable insights into the global business environment and emerging megatrends (such as entrepreneurship, innovation ecosystem, sustainability and digital transformation)."
